DETAILED ACTION

Response to Amendment

This action is in response to Applicant's amendment filed May 7, 2007. Claims 8-30, 32-35, 37-40 and 42-49 are pending in the present application.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 32-35 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 32-35 are not limited to tangible embodiments. In view of Applicant's disclosure, specification, pages 26-27, the "computer-readable medium" is not limited to tangible embodiments, instead being defined as including both tangible embodiments (e.g. non-volatile media) and intangible embodiment (e.g. carrier waves). As such, the claims are not limited to statutory subject matter and is therefore non-statutory. It is highly recommended that applicant amend claim to recite "a computer-readable storage medium..." in order to overcome the rejection.

Allowable Subject Matter

Claims 8-15, 37 and 42 are allowed.

In combination with each limitation of the claim, the prior art of record does not teach “wherein each of the plurality of local lock manager process may grant a lock on the same resource at any time when a number of outstanding locks granted on the same resource is less than specified maximum number of concurrent users” as claimed.

Claims 16-30, 38-40 and 43-49 are allowed as indicated in the previous office action dated February 8, 2007.

Art Unit: 2143
